## THE FATE OF A PROMINENT MARINE GROCERYMAN.

P.H. Monahan, one of Detroit's Oldest and Best Known Merchants Meets with a Serious Experience.

From the Evening News, Detroit, Mich.

Prominent among the business men of Detroit, Mich., is Patrick H. Monahan, who resides at 199 Baker Street.

He has been actively engaged in the grocery business for the past forty-seven years, of which forty-two years have been in Detroit. Coming here nearly half a century ago he started into business at the corner of Second and Jefferson Avenues, and for years catered to the marine trade. From Duluth to Buffalo his name as an honorable, honest boat supply man was well known to all boatmen. No matter what time of day or night, the Monahan Marine Grocery was kept open for the convenience of the lake boats. He is the best known and oldest retail grocery dealer in Detroit. He has been successful in business by his square dealings, and is yet to be found behind the counter any day at his large store, corner of Twelfth and Baker Streets. To a reporter, he recently said:

"When we first opened the Jefferson Avenue store we had to work day and night. The vessels that needed supplies, wanted them right off and we had to jump all the time. The reason vesselmen patronized us, was because we filled their orders at once. Every hour counts with them and we had a double set of clerks that worked day and night. I have been handling all my life. No man can succeed in business without hustling. Some people hustle too much, and I was one of them.

"About four years ago I had to give up on account of my back giving out. It had bothered me for years. For a week I sat around the house and then had to go to bed. The family physician said that I had worn myself out by hard work. I did not do

much for nearly two years, and doctored for my kidneys. My friends advised me to try remedial that they had faith in, and I tried nearly all of them. I was ready for any remedy that would relieve me, but I did not receive any benefit.

"I read considerable during my sickness and in my daily paper I noticed frequently articles regarding the wonderful cures made by Dr. Williams' Pink Pills for Pale People, and how the pills contained, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. One day I read of a case like mine, in which a complete cure had been effected. That convinced me that the pills had merit, and I decided to try them as they cost only 50 cents a box (never in loose form) or six boxes for \$2.50, and could be had at any druggist's, or by mail from the Dr. Williams' Medicine Company, Schenectady, N.Y. The next day I asked the druggist regarding them. He said, 'We sell large quantities of the pills and they are well recommended by the purchasers.' They build up the blood, and restore the glow of health to pale and sallow cheeks, and effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. I bought a box and took it home, and commenced to take the pills. Before I had taken one box that intense pain which for fifteen years had nearly killed me was gone. I continued using the pills until I had taken four boxes, which made me feel as well as I had for years previous to my sickness. My friends noticed the change at once and were more than pleased to see me out again. I continued using the pills, and in less than sixty days I was so much improved that I was able to attend to business."

## THE WEEKLY INTER OCEAN

LARGEST CIRCULATION OF ANY POLITICAL PAPER IN THE WEST

It is radically Republican, advocating the cardinal doctrines of that party with ability and earnestness. But it can always be relied on for fair and honest reports of all political movements.

THE WEEKLY INTER OCEAN SUPPLIES ALL THE NEWS AND BEST CURRENT LITERATURE

It is Morally Clean and as a Family Paper is Without a Peer.

The Literature of its columns is equal to that of the best magazines. It is interesting to the children as well as the parents.

THE INTER OCEAN is a WESTERN NEWSPAPER, and while it brings to the family THE NEWS OF THE WORLD and gives its readers the best and ablest discussions of all questions of the day, it is in full sympathy with the ideas and aspirations of Western people and discusses literature and politics from the Western standpoint.

## NEWS OF THE STATE.

### TELEGRAPHIC REPORTS OF HAPPENINGS IN MICHIGAN.

Items Called Out for the Benefit of Our Own Readers—News of the Past Few Days Which Will Be of General Interest to Michigan People.

Detroit, Feb. 1.—A friendly suit in chancery was begun yesterday in the circuit court at Pontiac to determine the constitutionality of the Bland-Allison silver act of 1878. Stephen Baldwin, a Detroit capitalist, purchased some land upon which there is a mortgage held by Fred A. Baker, chairman of the Democratic state central committee. Baldwin tendered 364 silver dollars in payment of the amount due on the mortgage. Baker declined to accept silver dollars unless enough of them were tendered to equal, at the present bullion value of silver, 364 gold dollars. Accordingly the suit was begun to obtain a decree compelling Chairman Baker to cancel the mortgage and accept the tender made.

Ex-Representative Tarnsey is the complainant's attorney and all the parties are prominent silver men and will carry the case to the United States supreme court in any event. Chairman Baker says: "I will contend before the courts that the Bland-Allison act is unconstitutional, because it did not provide for free coinage. It provided only that the government should buy silver at its depreciated price in gold and pocket the seigniorage. Yes, legalize the stealing of the seigniorage."

### STEAMER DULUTH VANISHES.

Wrecked Vessel Dashed to Pieces by a Furious Gale.

St. Joseph, Mich., Feb. 2.—The wrecked steamer City of Duluth went to pieces in the furious winter gale between 10:30 and 11:30 o'clock, after a valiant resistance to the waves that had dashed against her since she went on the bar last Wednesday night. Not a single vestige of the stranded craft is now visible. The ice that formed around the abandoned steamer held her shattered timbers together and prolonged her last stand against Lake Michigan, but the storm that raged all night and continued with unabated violence during the day proved invincible.

At 10:30 o'clock in the morning the Duluth's smokestack and a portion of the cabin amidships were washed away. The next part to go was the upper works aft, and then one by one portions of the craft were washed into the angry sea. The pilot house and spar stood until about 11:30 o'clock, when a great wave dashed against them. When the crowds of spectators in the hotels on the bluff were able to see through the spray nothing was visible of the wrecked ship. Pieces of the hull, which is fast in the sand of the bar, are being thrown upon the ice. Winter traffic between here and Chicago will probably be abandoned.

### ORATORS FROM MICHIGAN.

Men Who Will Meet Chicago University Delegates in Debate.

Ann Arbor, Mich., Jan. 31.—The literary and law departments debated in University hall to decide on the team which will represent Michigan in the annual debate with Chicago this year. The question under discussion was: "Resolved, That the action of the senate of the United States in rejecting the proposed treaty of arbitration with Great Britain was wise."

The laws supported the negative side and their three representatives, T. A. Berkley of Kansas City, L. C. Whitman of Ann Arbor and D. F. Dillon of Palmer, Mass., won out in the order named. Henry T. Thurber, the private secretary of ex-President Cleveland, presided. The testimonials to the winners were \$70, \$40 and \$30 respectively. The debate with Chicago takes place here last week in April and Chicago has chosen the negative side of the question. Thus the Michigan men will have to change sides. Chicago won last year.

Was an Ill-Fated Family.

Niles, Mich., Feb. 1.—The family of Mrs. Maria Schilling, of Decatur, who died Saturday, was peculiarly ill-fated. The husband, Peter Schilling, joined the Union army and died in an Ohio hospital. A daughter, Maria, died in a county house. Mrs. Evans, another daughter, wife of E. W. Evans, inventor of the air brake, was murdered. A son, William, a naval cadet, was killed by lightning on board a United States war vessel, and Mrs. Jennie Gibson, the only remaining daughter, went insane and died in a struggle.

Model Wife and Mother, This.

Detroit, Feb. 1.—The police are searching this city for Mrs. W. D. MacQuisten, wife of a local physician, who has sued for divorce. It is alleged that the woman visited the family residence in the evening in the absence of the doctor, rifled the doctor's desk, apparently in search of valuable papers, and then, it is charged, deliberately started a fire in the parlor, directly under an oil lamp. She left her two young children alone in the house to perish. The older child, aged 9, extinguished the fire.

Alarming Increase of Insanity.

Lansing, Mich., Feb. 1.—The increase of insanity in Houghton county is said to be little short of alarming, a local officer having been recently advised by the officials of Newberry asylum that in this respect the county is equaled only by Wayne, the largest in the state. For some time past insane patients have been received at the Houghton jail at the rate of one or more a week. In a few cases dementia has been traced to religion, but most of it is attributed to lack of success in business.

Mine Trimmer Instantly Killed.

Bessemer, Mich., Jan. 29.—Antone Lucinski, a Polish trimmer, was almost instantly killed at the Colby mine, section 18, yesterday by falling from the tramway of No. 5 shaft, a distance of forty feet. Lucinski was sweeping the snow from the track when his companion came by with the car. In stepping back to get out of the way it is supposed that Lucinski lost his balance and fell.

Detroit Collector is Defiant.

Detroit, Mich., Jan. 29.—Internal revenue collector Phelan (democrat) has sent a defiant letter to the civil service commission at Washington, refusing to comply with its demands to discharge

a deputy collector at Saginaw. As a parting shot at a government official, he indicts congress, civil service reform and the government.

No Law for the Methodists.

Lansing, Mich., Feb. 2.—The Methodist appear to have been left unprotected for when the last legislature repealed all special laws for the incorporation of religious societies, and enacted a general law covering this subject. It has developed that no provision was made in the new statute for churches having a congregational policy, only those with a congregational policy being included. The Methodists are, therefore, left without means for legally incorporating.

First Real Blizzard of the Season.

Ishpeming, Mich., Feb. 1.—The first real blizzard of the winter reached the iron and copper regions of northern Michigan at an early hour yesterday morning. All passenger trains are from five to ten hours late, while freight trains are abandoned. Street railway traffic is suspended and outdoor work at the various mines is impossible.

The Williamson Private Bank.

Marquette, Mich., Feb. 2.—A statement of the private bank of J. M. Williamson, which recently closed its doors, shows nominal assets of \$205,193.76 and appraised assets of \$146,223.70; liabilities, \$122,973.28. The cash on hand at the date of the assignment was \$28,973.68. The amount which has been paid in since is \$11,263.92.

Beet Sugar Factory for Cadillac.

Cadillac, Mich., Jan. 31.—A beet sugar factory requiring an investment of \$500,000 is one of the probabilities for this place, several experienced manufacturers from Nebraska having been here several days looking over the situation. They pronounce this the best point in Michigan they have visited.

Orangemen to Meet at Port Huron.

Port Huron, Mich., Jan. 31.—The Orangemen of Michigan and Ontario (Canada) have decided to hold their annual celebration on July 12, 1898, at Port Huron. The mayor, H. W. Stevens, extends an invitation to all organizations of Orangemen to attend.

Michiganders Seek the Klondike.

Detroit, Jan. 29.—Twenty-three seekers after fortune left Detroit Thursday night for the Klondike. The party is in charge of William R. Booth, of Detroit, who formerly mined a claim near Circle City. The outfit is due to sail from Seattle Feb. 4.

State Notes.

Joseph P. Hamblitz has been appointed receiver of the Stonington Mining company owning 320 acres of valuable mineral land on the copper range south of Houghton, Mich.

The boiler of the traction engine used to furnish power for wood sawing at White Pigeon, Mich., blew up, severely wounding eight farmers.

D. O. Adams, a rich farmer residing south of Homer, Mich., committed suicide with a revolver while temporarily insane.

George E. Hall, of Fairfield, Lenawee county, Mich., shot a rabbit just across the Ohio state line. He was arrested and his fine and costs amounted to \$62.20.

The Pere Marquette (Mich.) Cannery company is enlarging its cooking department so that 1,000 bushels per day can be handled easily.

A member of the board of regents of the University of Michigan denies the report that Minister Angell will soon return from Turkey to resume the presidency of the university.

An unknown man was found frozen to death near Cadillac, Mich.

In a fight with drunken tramps at Houghton, Mich., Dave Senton, a citizen, was fatally shot.

### BAD FOR THE ENGINEERS.

Accident to the Battleship Indiana Discloses Gross Incompetency.

New York, Feb. 2.—The accident to the boilers of the battleship Indiana on the recent run to Key West is said to have been more serious than was given out. The Indiana is fitted with four enormous double-ended boilers and two single-ended boilers. Each of the big boilers is provided with eight corrugated furnaces. Under ordinary circumstances the Indiana, it is declared, should be able to steam nearly thirteen knots per hour on two boilers alone.

On the run from Hampton Roads to Key West the Indiana was steaming under two boilers. The speed was an easy one, but suddenly it was found that the fireman's floor of the ship was being flooded with water. The engineers are provided with tube stoppers in case a tube gives way, but in this instance it was something more than single tubes.

Whole groups of the tubes, it is reported, were found to have started, and, worse than all, the back connections threatened to give way. Assistance had to be rendered by the big cruiser New York and the Indiana was accordingly taken in tow. This state of affairs lasted for six hours, by the end of which time the reserve boilers were fired up. The actual trouble aboard the Indiana is said by prominent engineers to have been not half so alarming as was the fact which was disclosed through the accident that some of the naval engineers in the service are not fit to be entrusted with high-powered modern machinery.

Took the Cash and Skipped.

Cincinnati, Feb. 2.—The police have been notified to look for Mike McGinness and "Red" Murphy, who, by mere guessing, gave hints to Francis McBriner and F. H. Bond of New York whereby they won \$5,000 at the races. The touts made these men believe they "fixed" the races. The four then came to Louisville and Bond went on to Little Rock and was arranged to win a big pile on Silva in the fourth race at New Orleans. McBriner bet \$1,500 in one poolroom and gave \$5,000 to McGinness to bet in another. Silva was beaten and McBriner found that McGinness fled without betting at all.

Presidential Nominations.

Washington, D. C., Feb. 2.—The president has sent the following nominations to the senate: George M. Bowers of West Virginia, to be commissioner of fish and fisheries; David King, collector of customs for the district of Natchez, Miss.; Colonel Samuel T. Cushing, assistant commissary general of subsistence, to be brigadier general and commissary general of subsistence; Charles T. McCoy, agent for the Indians of the Cheyenne river agency, in South Dakota.

Concert of Europe Doesn't Work.

New York, Feb. 1.—A dispatch to The Commercial-Advertiser from London says: "There is an impression here that the sultan in the end will be compelled to accept Prince George as governor of Crete. It is strong enough to provoke discussion of the consequences, namely—that the Turks, already disturbed and restless, will be likely to ask compensation for Greece's virtual gain of Crete. The European concert, as to the near east, is temporarily dissolved, with Germany and Austria on one side and the other powers on the other, but it is not beyond re-establishment. The Greeks are likely to be calmer and more content with the dynasty, but there are fears of worse than the existing anarchy for a time in Greece, with the Turks clustered about Cana and jealous Cretan clan chiefs ready to provoke disorder."

Destitution in the Klondike.

Washington, Feb. 2.—The report of Captain Ray, who was sent by the government to the Klondike to report on the actual state of affairs there, has been received. The report reveals a worse state of affairs than was suspected; indeed, so large is the task that remains to be executed in order to insure the safety of life and property on the American side of the line alone that the war department officials have concluded to advise congress as to the facts, and place upon the legislative branch the duty of devising ways and means to meet the exigencies of the case.

Found a Missing Michigander.

Chicago, Feb. 1.—Mathew Northey, of Houghton, Mich., who disappeared from the Leland hotel yesterday morning a week and for whom four detectives and a brother had been making a fruitless search of the levee, reappeared at the hotel Sunday night to report a shortage of nearly \$500 in his available cash. He said that he must have had a pretty good time. The Northey brothers had come to Chicago Monday week from Houghton, on their way to West Baden, Ind. Mathew disappeared during the course of the forenoon.

Frank Collier Gets a Divorce.

Chicago, Jan. 29.—Attorney Frank Howard Collier was granted a divorce from his wife, Fannie G. Collier, by Judge Freeman yesterday morning on the ground of cruelty and desertion. There will be no appeal from the decision, and the only question now remaining to be settled is that of the disposition of the three children. Mrs. Collier will get neither alimony nor allowance for her lawyers and may lose the children in the end.

Ropeway Across Chilkoot Pass.

Pittsburg, Feb. 1.—The Westinghouse Electrical and Manufacturing company, of this city, a few days ago shipped a train load of electrical apparatus to the Dyea Klondike Transportation company, which will be used for the operation of an electric rope tramway across the Chilkoot pass.

Devout priests frequently mortify their flesh and voluntarily force themselves to undergo great bodily hardships and deprivation. They are enabled to do this and escape serious injury to their health by reason of the purity of their lives and the fact that they deny themselves the pleasures of the table.

An ordinary man who lives in the ordinary way cannot long endure hardship, deprivation or overwork, unless he takes the right remedy to reinforce nature. The average man when he is in good health eats too much. When he gets a little out of sorts he pays no heed to his food, and keeps right on "making a hog of himself."

In some instances he gets thin and emaciated. In others he gets grossly corpulent, and weighted down with fatty fat. In the first instance he is a candidate for dyspepsia and nervous prostration. In the second for kidney trouble or heart failure. Dr. Pierce's Golden Medical Discovery enables the average man to undergo a great deal of hardship, deprivation and overwork, in spite of the life he leads. It causes the food to be properly assimilated. It builds firm, healthy flesh, but does not make corpulent people more fat. It cures dyspepsia, nervous troubles, kidney disease and 98 percent of all cases of consumption. It prevents weakness in any organ of the body.

"In August, 1895, I was taken down in bed with a burning and severe pain in my stomach and under my shoulders, and distress in my head," writes Ira D. Herring, Esq., of Emporia, Kansas, Mo. "My home physician said my symptoms were like consumption. Nothing that I ate would digest, and I had great distress in my stomach. I wrote Dr. Pierce for advice, and took four bottles of his 'Golden Medical Discovery' and three of 'Pleasant Pellets.' I am now able to do my work and eat many things that I could not touch before I took these medicines."

An inactive liver and constipated bowels are promptly cured by Dr. Pierce's Pleasant Pellets. They never grime.

Mortgage Sale.

Default having been made in the conditions of a certain mortgage, bearing date the 21st day of March, in the year one thousand eight hundred and ninety-one, made, executed and delivered by Henry Robbins and Sarah G. Robbins, his wife, of the city of Chicago, Shilwa-see County, State of Michigan, to Joseph Hershey, of Gorman, Ontario County, State of New York, said mortgage being duly recorded in the office of the Register of Deeds for Shiawassee County, in the State of Michigan, in Liber 15 of mortgages, on page 508, on the 21st day of March, A. D. 1891, upon which mortgage there is claimed to be due, at the date of this notice, the sum of eight hundred eighty-two dollars and sixty-four cents, for principal and interest, under the terms of said mortgage. And no suit or proceeding at law or in equity having been instituted to recover the same or any part thereof; now, therefore, notice is hereby given, that by virtue of a power of sale in said mortgage contained, said mortgage will be foreclosed on the 28th day of March, 1898, at ten o'clock in the forenoon of said day, by a sale at public auction or vendue, to the highest bidder, of the premises described in said mortgage, to take place at the front or west door of the Court House, in the city of Gorman, (that being the place of holding the Circuit Court for said county of Shiawassee) for the purposes of satisfying the principal and interest of said mortgage together with the costs of sale, including the attorney's fee of twenty-five dollars, as allowed by law, and as provided in said mortgage. Said premises being described in said mortgage as follows, viz.: Commencing at the quarter post on the west side of section thirteen (13) in town seven (7) north of range two (2) east, running thence north on said section line four (4) chains, forty-three and one fourth (43 1/4) links to a point fifty-five (55) links due west of a soft maple tree twelve (12) inches in diameter, thence east variation 1° and 15' east to the west bank of the Shiawassee river, thence southerly along the bank of said river to a corner corner on section line between sections thirteen and fourteen (13 and 14), thence north on said section line about six (6) chains to the place of beginning, containing three (3) acres of land.

Dated this 21st day of December, 1897.

JOSEPH HERRSHY, Mortgagee.

KILPATRICK PIERPONT, Attorneys for Mortgagee.
